Objectives

My objectives would be to continue to grow my career and knowledge. To be a wizard behind the keyboard. I have a real passion for code and learning. I changed careers from an electrician to my dream careers. So I know this is what I want to do with my life. With that history I bring a unique perspective and strong work ethic to the field of coding. I know how front end works but prefer back end development. Figuring out how something works to return a specific result. Knowing there is multiple ways to achieve the same outcome.

SKILLS

PHP, Laravel, Vue.js, HTML, CSS, SASS, tailwind, Javascript, MYSQL, Git, Linux

Vim - Vim is life. I use vim every day. The better you know your tools the quicker the work gets done.

Laravel, Vue.js - I use both everyday with work currently.

EXPERIENCE

Ok200 - *Full stack developer*

October 2022 - PRESENT

Using Laravel and Vue.js to make web applications. Mainly focusing on back end.

Efront - *Full stack developer*

February 2021 - October 2022

A very fast-paced web agency pumping out WordPress websites. The work is split between new websites and maintaining legacy ones.

Tigmo - *Lead Full stack developer*

April 2020 - February 2021

Building Wordpress websites from front end to back from scratch.

Ketch Labs, Ballarat - *Business Owner / Web Developer*

2017 - PRESENT

I have been building websites for clients on and off for a while starting with wordpress and now laravel builds. I currently have a product I am working on for myself.

Self Employed, Ballarat – *Electrician*

December 2016 – **April 2020**

Student, Ballarat – *Federation University*

2015 – **December 2016**

Employed and Self Employed, Multiple locations – *Electrician*

2004 – **2015**

I worked at multiple places and had multiple roles. Some directing jobs, managing people and materials. This taught me a lot about working with clients, managing teams and time.

EDUCATION

Federation University, Ballarat – *IT Computer Games & Digital media*

February 2015 – **December 2016**

During my university studies in Computer Games and Digital Media, I consistently achieved high grades. My academic success can be attributed to my unwavering passion for technology and gadgets, coupled with my genuine enthusiasm for learning how to code

SMB, Ballarat – *Electrotechnology*

January 2004 – **December 2007**

This was my electrical apprenticeship. I started working The day after I finished high school at the end of year 10.

AWARDS

I received an invitation to the golden key society in my first semester at university for achieving high grades in all subjects.
